

Sunfab strainer for separate installation on the suction pipe.

Sunfab strainer type 150 is an inexpensive guarantee against operational stoppage due to contaminants such as welding blobs, brazing flakes, etc, which can often occur in the system, especially after new installations.

Sunfab strainer is single use but can be flushed clean if necessary.

Sunfab strainer type 150 functions as a coarse filter and does not replace the normal return filter.

Sunfab strainer is intended for pump type SL. It must not be used with pump type SC because of the increased pressure in the suction pipe.

Extra accessories

- 90° rubber bend which simplifies installation in short suction pipes

Strainer type 150

Max flow	l/min		65	120	185
Pressure drop at 150 l/min	bar		0.05	0.05	0.05
Mask width	µm		250	250	250
Strainer area	dm ²		15	15	15
Dimensions	mm	A	38	50	64
	mm	B	50	50	58
	mm	C	300	300	316

Subject to design alteration

Connection rubber 90°

Material	Reinforced nitrile rubber				
Temperature range	-30 - +100 °C				
Dimensions	mm	∅ d	38	50	64
	mm	∅ D	48	60	75
	mm	L	100	120	150
